* Australian Standard AS2129 is equivalent to and derived from British Standard BS10. (Due to metrication, where flanges are drilled and tapped, AS flanges are metric as opposed to BS which can be UNC tapped. AS2129 is still in place for tale D to H but has been updated by AS 4087 which specifies the same drilling but uses the PN pressure rating system PN 16 to 35. BS Table J to K have been deleted and replaced by AS4331 (ISO 7005-1) which covers PN 2.5 to PN 420 (metric equivalent of ANSI B16.34/MSS-SP44)

ALL SIZES ARE IMPERIAL INCH, METRIC (MM) SIZES ARE TO SHOW NOMINAL EQUIVALENT ONLY.
