

# CVS Control Valves

Proven design, superior quality, price and delivery

V-Ball Control Valve c/w 1051 Actuator

DBAQ, DA, EA Right Angle Control Valve

#2400 Smart Positioner

E Series Control Valve ED, ET, EZ, EWD, EWS, EWT

Hydraulic Self Contained ESDV

Chemical Injection Pump

Canadian made interchangeable spares all models

## CVS CONTROLS (Canada) - ED, ET, EWD, EWS, EWT, D, HPX, HPAX, V100

Global Supply Line are sole CVS agents for Australia, New Zealand & PNG. Our Adelaide valve engineering & support facility is capable of supporting the CVS range. CVS are approved by numerous companies and/or their subsidiaries worldwide including Apache, Aramco, BP UK, Chevron, Expro UK, Exxon/Mobil, JKK Oil & Gas UK, Kuwait Oil & Gas, Pertamina, Petronas, Tenex UK, Texaco and Unocal.

CVS Controls Ltd. is an internationally recognised manufacturer of high quality products for the process control industry.

- Control Valves and Trim
- Actuators
- Pressure Controllers
- Regulators
- Centrifuges
- Chemical Injection Pumps

The CVS model range includes globe control valves, in line and angle style in Series D, E, HPX and HPAX. The E Series includes models: ED, ET and EZ as well as EWD, EWS and EWT. All of these valves are available with direct or reverse acting spring opposed diaphragm style pneumatic actuators in 657 and 667 series in size 30, 40, 50, 60, 70 and 80. CVS also manufacture a V100 Series V-ball control valve available with 1057 or 1061 pneumatic piston rotary actuators.

CVS also manufacture wizard style pressure controllers and smart controllers. The popular, proven 4150 and 4160 series controllers are standard with the optional 4150LE Low emission series also available.

CVS spare parts suit a wide range of Fisher®\* control valves & actuators such as:

- Series A, B, D, ED, ET, EZ, HP, EWS, EWT, EWD and HP globe body control valves
- Series V100, V150, V200, V250, V300 and V300 rotary control valves
- Series 8500, 8510 and 8550 E-disc control valves
- Series 1051, 1052 rotary spring & diaphragm actuators
- Series 1061 rotary piston actuators
- Series 657 and 667 spring & diaphragm actuators
