

AIR TORQUE COMPANY PROFILE

AIR TORQUE[®]

Global Supply Line - Agents & major stockists Australia, New Zealand & PNG.
Contact us: sales@globalsupplyline.com.au Website: globalsupplyline.com.au

Founded in 1990, Air Torque Spa has become in few years one of the worldwide leading manufacturer of rack and pinion pneumatic actuators.

Since the beginning the mission of the Air Torque Spa has been always to offer innovative products by combining the long filed experience as market leader, the innovational spirit, the well-known reliability in actuator designing and the high quality manufacturing level supported by high level Western Europe components suppliers, and based on an ISO 9000-2008 quality system.

With the attitude to always satisfy the market and customers needs, Air Torque Spa has developed the worldwide widest range of aluminium alloy rack and pinion actuators with torques up to 10.000 Nm and available with different options in terms of valve interfaces, surface protection levels and smart functional features; all covered by several International Patents.

Air Torque Spa has integrated its production of standard actuators with special actuators like 120°, 135° and 180° rotation both double acting and spring returns; 3 position actuators both 90° and 180° rotation, fast acting actuators and hydraulic damped actuators. A line of rack and pinion stainless steel actuators completes the range of Air Torque Spa lines of products.

Air Torque Spa factory counts nowadays 50 employers on an extension of 5000 square meters, with a yearly production of more than 300.000 actuators.

The sales are covering all the world, from the Americas to Oceania, through a wide network of official distributors, directly to big end-users and directly to big OEM customers.

RANGE

Product Lines	Range
4th Generation Line "Upgrade" Series 	17 sizes available with torques up to 10.000 Nm in double acting and up to 4068 Nm for the spring return version, available in 6 different protection levels. Working temperature from -55°C and up to +150°C (Standard from -40°C up to +80°C).
Power Technology Line "B" Series 	17 sizes available with torques up to 10.000 Nm in double acting and up to 4068 Nm for the spring return version, available in 6 different protection levels. Working temperature from -55°C and up to +150°C (Standard from -40°C up to +80°C).
Stainless Steel Line "S" Series 	9 sizes available with torques up to 1966 Nm in double acting and up to 865 Nm for the spring return version. Working temperature from -55°C and up to +150°C (Standard from -40°C up to +80°C).

ALUMINIUM ACTUATOR RANGE

DOUBLE ACTING

from 13,2 Nm to
10.000 Nm at 6 bar

100% travel
stop limitation

Lock-out
capability

DOUBLE ACTING
90° rotation

DOUBLE ACTING
120° rotation

DOUBLE ACTING
135° rotation

DOUBLE ACTING
180° rotation

3 Position
actuator
90° rotation

FAST ACTING

Hydraulic Damper

3 Position
actuator
180° rotation

AIR TORQUE
Product Range

SPRING RETURN

from 8,1 Nm to
4068 Nm with 12 springs

100% travel
stop limitation

Lock-out
capability

SPRING RETURN
90° rotation

SPRING RETURN
120° rotation

SPRING RETURN
180° rotation

3 Position
actuator
90° rotation

FAST ACTING

Hydraulic Damper

FAIL MID
180° rotation

FIELDS OF APPLICATION

CHEMICAL	FOOD INDUSTRY	NAVAL
PHARMACEUTICAL	PULP & PAPER	CAR INDUSTRY
REFINERY	WATER TREATMENT	STEEL PLANT
