

SAMBO SE Series Quarter-Turn

SE Series Quarter-turn Gear Actuators >>>

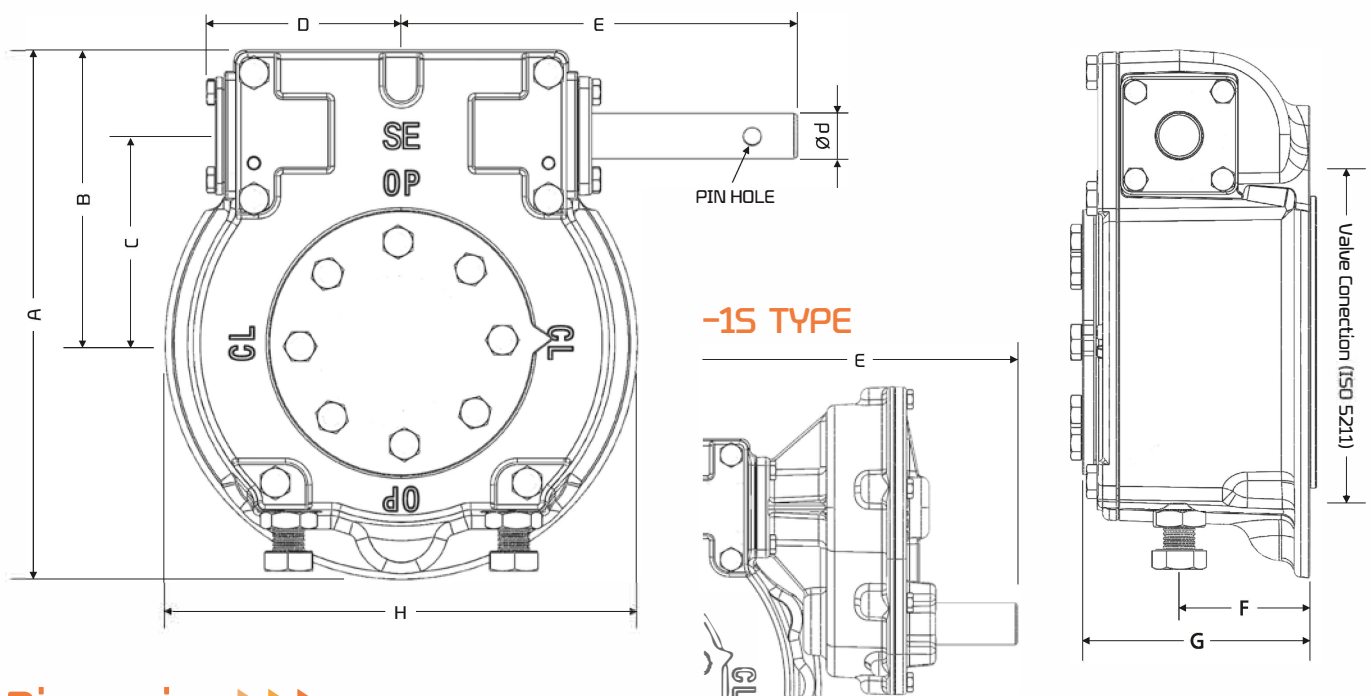

- The Sambo SE series is designed to meet stringent requirements and provide the necessary durability and reliability.
- All castings are spheroidal graphite cast iron, and CLASS 65-45-12 has high strength and impact resistance.
- All products use integral worm shafts and high strength bearings to support axial and radial loads.
- Two types of separable bushing and integral type make maintenance easy.
- It has double sealing structure and excellent waterproof and dust proof capability.
- Finish painting is Kovinyl wash primer.

Application >>>

- The Sambo SE series is a 1/4 turn gear actuator with ball, plug, can be applied to butterfly valves, it can also be used for general devices.

Features >>>

- 8 model products. & 5500 N.m Torque Range. & ip67 STANDARD.
- -20 degrees to 80 degrees. & According to all mounting bases iso5211.
- All castings ductile iron(Class 65-45-12) excellent strength and impact resistance.
- The worm is a single-body, heat-treated high-strength carbon steel.
- Waterproof and dust proof thanks to double sealing structure IP67 STANDARD.
- Application of high strength worm gear.
- Use adjustable stop bolts +-5 degrees.
- Removable bush type for easy maintenance.
- Open-close-open on the cover is free to change direction with the position indicator.

Dimension >>>

unit : mm

Model	A	B	C	D	E	F	G	H	Ød

Material List SE-series >>>

No.	Description	Material	Note
1	Housing	Ductile iron	Gr.D 65-45-12
2	O-ring	Silicon	
3	Worm	Carbon steel	AISI 1045
4	Needle bearing	Special Steel	-
5	DU Bushing	Special Steel	-
6	Gasket	Liquid seal or Nonasbestos	-
7	Bolt	Alloy steel	Gr.D 10,9
8	Worm Wheel	Ductile iron	Gr.D 100-70-03
9	Thrust Washer	Steel	
10	Front Cap	Steel	-
11	End cap	Ductile iron	Gr.D 65-45-12
12	Stem bush	Ductile iron	Gr.D 65-45-12
13	Position Indicator	Steel	
14	Packing Seal	Silicon	
15	Stop bolt	Alloy steel	10,9 Gr.D
16	Grease	Zenith EPAB-2
